 51-100 employees

About Us

At GenSys, we are dedicated to fostering innovation and excellence in IT solutions. We are seeking a motivated and enthusiastic Intern to join our team and contribute to network design and software development projects. This internship opportunity will allow you to leverage your administration experience, technical skills, and passion for IT to make a meaningful impact on our organisation.

As an Intern, you will:

- Assist in network design and implementation projects, contributing to the optimization and maintenance of our IT infrastructure.
- Collaborate with our development team to create and enhance applications that drive efficiency and innovation within the organization.
- Provide support for general troubleshooting tasks and system upgrades.
- Assist in maintaining and updating our IT equipment inventory and documentation.
- Participate in team meetings to contribute insights, share ideas, and actively engage in project discussions.
- Collaborate with cross-functional teams to identify opportunities for process improvement and technology integration.
- Contribute to the development of technical documentation, user guides, and training materials.
- Engage in professional development opportunities and training sessions to enhance your skills in network design and software development.

To succeed in this role, you should possess the following:

- Currently pursuing a relevant Bachelor degree in Computer Science, Computer Engineering or related field, with a strong academic record
- Demonstrated knowledge of programming languages including C++, C#, Java, HTML, Python, and SQL.
- Proven ability to handle administrative tasks. Experience in general troubleshooting and system upgrades is a plus.
- Strong teamwork skills through contributions to collaborative projects
- Track record of meeting deadlines, prioritising tasks, and successfully balancing multiple projects and commitments.
- Effective communication skills, both written and verbal, with clients and colleagues

- Passion for technology, a desire to learn, and the ability to contribute fresh ideas to our projects.

What We Offer

- An opportunity to work on exciting network design and software development projects.
- Exposure to a collaborative and innovative work environment.
- Mentorship and guidance from experienced professionals in the field.
- A chance to make a meaningful impact and contribute to real-world initiatives.

If you are a proactive and motivated student with a passion for network design and software development, we encourage you to apply for this internship position. Join us on our journey to drive technological innovation and excellence.

To apply, please submit your resume and a cover letter outlining your relevant experience and why you're interested in this opportunity.

Application Deadline: DD MMM YYYY

GenSys is an equal opportunity employer. We encourage applications from candidates of all backgrounds and experiences.
